BRIG Eagle 10 – the ideal luxury Sports Boat

At 10.2 metres, this ultimate cruiser boasts a deep-V-hull that ensures a dry, smooth ride. It's more stable, lightweight and low-maintenance than its hard-sided counterparts, and it's virtually unsinkable due to the Hypalon tubes and their buoyancy and durability. In addition, it features comfortable seats, a convertible table and sun deck, a sink unit that can accommodate a fridge/stove, a convenient stern swim platform with folding ladder and outdoor shower kit, plus a well-appointed cabin complete with double bed. For family fun, as an island hopper, luxury boat tender, chase boat, aquatic sport platform, coastal cruising and more, the Eagle 10 delivers.
